## Think what depends on your tubes

They are almost as important as your tires. Yet few  
watch tube service.

Miller builds the finest tubes that have ever been developed.  
For 24 years Miller has specialized in super-grade tubes.

Miller builds more surgeon's gloves, for instance, than any  
other concern in the world. And that's the sort of skill  
needed.

Miller Tubes are built of thin sheets of pure rubber. They  
are built on layer-sheets on sheet—up to the proper size.

Then each tube is tested for hours under air pressure to  
make sure it's air-tight.

You don't get such tubes when you buy tubes by the  
dozen and try a Miller Tube, red or gray. Watch its service.

After that you'll never buy an ordinary tube.

Millers cost no extra price.
